SNAPS for GREENHOUSE FORCING

NEW WINTER FLOWERING SNAPDRAGON

Olsen's White. Exceptionally long flower spikes with numerous, well placed, snow white flowers are a feature of this variety. Our observations have convinced us that this new winter flowering white has much to commend it for trial.

Bronze Queen. Enthusiastic comments by growers and storemen mean that this variety has established itself as a profitable sort. Recommended where a good free flowering bronze is needed.

Bezdek's White Wonder. Splendid pure white that proved itself last season to be one of the best commercial whites.

Embers. Bronze touched with scarlet, actually glows under light. When well grown, a reasonable amount of this variety will do much to enliven the color selection. Brings a good market price.

Glorious. Comes to us highly recommended as an excellent bronze.

DELPHINIUM

We have been growing quantities of Delphinium for many years. The greatest of care has been taken to produce superior strains, and critical buyers tell us our strains are better. Fresh seed is necessary for good germination, and you will receive no old seed from us.

Tr. Pkt. Oz.

Giant Pacific Hybrids. This strain has created a sensation wherever shown. The immense double flowers and clear colors make them especially valuable as a cut flower item.

STOCKS

We are able, this season, to offer seed that has been greenhouse tested for percentage of double bloom. The quality of the strains offered has been thoroughly proven and we are confident that finer strains are not available.

MAMMOTH FLOWERED COLUMN Three New Colors

	Tr. Pkt.	Oz.
Pink. A soft Chatenay pink that is so useful for cut flower purposes. A really fine introduction.		

Lavender. Several shades deeper than Silver Lilac but the individual flowers are almost one half again as large. A fine sort.

Salmon Rose. We have used this name as best describing the color of this new development. The flowers as they first open are a soft salmon yellow with a suffusion of old rose which intensifies as the flower ages. The immense size of the double blooms and the unusual color make this a variety that will create attention wherever shown.

Any of the above three new colors, $\frac{1}{2}$ Pkt. \$0.60, Tr. Pkt. \$1.00, $\frac{1}{4}$ Oz. \$3.00, Collection Tr. Pkt. of each color \$2.50

Forcing Branching Type

These varieties are really branching types but planted close they require very little pinching to produce spikes fully equal to the best column stock. Experience has shown that up until now they are the best of their color for forcing purposes.

Santa Maria. This grand white cannot be excelled for size, purity and percentage of doubles. The most profitable of all stocks.

Giant Noble White. Blooms two weeks sooner than Santa Maria but is more variable in producing doubles.

Chamois. A really double strain of this difficult color.

Tested for percentage of double blooms. Any of the above 3 varieties, Greenhouse grown seed. Tr. Pkt. \$0.35 $\frac{1}{4}$ Oz. \$1.25 1 Oz. \$4.00

Stocks Giants of Calif., Improved Bismark and Beauty of Nice will be found listed in our 1938 catalogue.

CINERARIA

Popular pot plants. The strains offered below are considered the most desirable.

	Tr. Pkt.	Oz.
Siter's Rainbow Strain. Remarkable for its wide range of color. Compact in growth, and the small leaves make for ease in handling. Awarded first prize in Philadelphia Flower Show 1936, 1937, and 1938. Originator's packets	\$2.00	each
Creamer's Prize Strain. A consistent winner at shows. Very compact in habit. Mixed colors. $\frac{1}{2}$ Tr. Pkt. 85c 1/32 Oz. \$4.00, 1/16 Oz. \$7.50		\$1.50
Weissenseer Strain (Berlin Market). An excellent strain of dwarf compact growth with medium large flowers. Select mixture, all colors.		
	1/64 Oz. \$1.50	1.00

Multiflora Grandiflora Maxima Nana (New). Individual florets measure 2-3 inches and are produced in large quantities. Our strain includes many choice colors. Dwarf compact, 12-16"	1/32 Oz. \$2.50	1.25
--	-----------------	------

Multiflora Nana. Very dwarf and compact, flowers of large size, and produced in great profusion in a range of splendid colors.

CALCEOLARIA

Excellent and easily grown pot plants for a reasonably priced, showy item for Easter and Mother's Day.

	$\frac{1}{2}$ Tr. Pkt.	Tr. Pkt.
Improved Flower Cloud. A new type that has been fixed after four years of hybridization. Characterized by a uniform, vigorous, and healthy growth requiring practically no staking. The good-sized flowers come in a wide range of spotted and tigereed colors and are produced in immense masses. A remarkable feature is that under cool airy conditions a plant will remain in good condition about three months. 1/64 Oz. \$5.00	\$0.60	\$1.00

PANSIES

Garden State Giants: As another pansy season passes we cannot help being impressed with the quality bred into this fine strain by the originator. Immense flowers of great substance, a wide range of colors, compact sturdy plants, early and continuous flowering and a remarkable resistance to Summer heat make these "Pansies that sell when others go begging." **Several of our customers report excellent results for late winter flowering in the greenhouse.**
